Forecast for Wednesday 09 Sep 2020

Weather: Cloudy and breezy with outbreaks of rain or drizzle during the morning, perhaps turning persistent for a time. Gradually becoming drier and brighter from the north during the afternoon with some bright or sunny spells. Staying generally clear into the evening and overnight.

Chance of cloud free mountain/hill tops above 600m: Less than 10% at first with bases widely down to around 500ft with some down to 300ft in the more persistent rain. Rapidly reaching greater than 90% during the afternoon as cloud lifts above the tops.

Visibility: Moderate or poor through the morning, very poor in the low cloud. Very good or excellent through the afternoon.
